Share speculation opened in the main firm and 4 per cent, higher than yesterday's closing prices for Richmond and Danville, and of the list, the latter for Hannibal and St. Joe preferred and Norlolk and Western preferred, while New Jersey Central opened per cent, lower. The market in early trade, after a fractional advance, fell [@2] per cent , Louisville and Nashville, Denve and Rio Grande and New Jersey Central be ing most prominent in the decline. Subsequently the market sold with occasional fraconal reactions of 16:3 per cent., New Jersey Central, Reading Denver and Rio Grande and D. laware, Lackawanna and Western being most conspicuous in the upward movement, while Lauisville and Nashville advanced 1], reacted 14, and sold up 11 per cent; Richmond and Danville, however, sold down 21 per cent, to 1212. In the early part of the afternoon, after a reaction of 1602 per cent, in the general list, the latter for New Jersey

Central, an advance of [@1] per cent. was recorded, in which Wabash common, Den-ver and Rio Grande and New Jersey Central preferred and Missouri Pacific being prominent in the upward movement, 624.

while New Jersey Central advanced 4 per cent. to 83, declined 2 and recovered 2 per cent. to 83, declined 2 and recovered 3 per cent. to 83, declined 2 and recovered 4 per cent. to 83, declined 2 and recovered 4 per cent. to 83, declined 2 and recovered 4 per cent. to 83, declined 2 and recovered 4 per cent. The close The market closed stronger, and the close of 1 64(a). cent. to 83, declined 4 and recovered 4 per cent. at the close. The market closed stronger, at about the highest figures of the day. The total advance from the lowest point of the day for New Jersey Central was 64, Denver and Rio Grande 34. D laware, Lackawanna and Western 34, and Louisville and Nashville 3 per cent. The working of the stock washest throughout the day above that a market throughout the day shows that a strong power is now back of the leading stocks. The exhibition of this power is gradually working a change in the sentiment of the "street," and of those outside of the street who deal in stocks. If the market continues

steady to strong for a few days longer it will cause no surprise if the outside public and foreign markets become large buyers. Prices have been low enough of late to tempt purchasers from the quarters named; but these have not been made because it seemed as if the bears of the last few weeks had such comthey pleased, without regard to anything which should properly affect prices. When the public and foreign market begin taking stock treely, then the large short interest, which has not yet been covered, may be expected to come in and cover, which a demand of this magnitude, comparing with other dethis magnitude, comparing with other demands to this magnitude, comparing with other demands for other stocks, might easily give. Evilence accumulates that heavy capitalists are at the back of their respective stocks, and have resolved to put them beyond the power of being raided by those who have been successful at this work in the last few weeks. The teading Gould and Vanderbilt stocks, to wit: Lake Shore, Western Union and Missouri Pacific, were steadily strong throughout, In the early dealings New Jersey Central, Louisville and Nashville and Denver and Ro Grande were shaken up, or rather down, but as later events showed for the purpose of bulling; all advanced sharply in the latter part of the day, notably New Jersey Central. A good many orders for stocks from outsiders were received to-day by commission houses and from European markets by foreign bankers. Transactions ag-

kets by foreign bankers. Transactions aggregated 500,000 shares. C. P. firsts, 114\(\sum_{\text{c}}\)
